- All Interactive2000 PowerChargers And most all Titan Series Chargers will charge all current and older model batteries.
- Hytron Series Batteries
  - InterActive 2000 Power Chargers (QUAD/DUAL/ABC800) require software version 3.2 or higher to work with the Hytron series batteries. Lower revision models can be easily upgraded to the current revision with a field replaceable ic chip for \$35.
  - To find out for sure if your Logic Series Charger will work call Anton Bauer Customer Service at 800-541-1667 with your model# & serial#.
  - MP-4 and MP-8 chargers should not be used with Hytron series batteries
  - Late versions of the following should work with Hytron series batteries: ABC800H, Q2. (Earlier versions may require a software upgrade chip).
- Dionic Series Batteries
  - Can Only Be Used With Interactive2000 PowerChargers And Titan Series Chargers Only (Logic Series Chargers can not be used).
  - Dionic Batteries: Are compatible with the following model chargers with software revision 3.6 or higher: Quad2702, Quad2401, Dual2700,
  - Dual2701, Dual2702, Dual2722, Dual2401, TitanT2, TitanTwin (two-tone model only), Titan70 (sn#1033+), TitanTWQ
